## SUMMARY

---

I'm a Full-Stack Web Developer with most of my experience in HTML, CSS and JavaScript, and have received a certification from the University of Denver Coding Boot Camp. I love solving problems and optimizing programs to make them as efficient and user-friendly as possible. I've also always been passionate about learning new things to further my skills both in the technological field and just for fun;

---

## TECHNICAL SKILLS

---

- Proficient in HTML, CSS and JavaScript
- Experience with Bootstrap and Materialize libraries
- Adept with MongoDB, Express, React and Node.js (MERN stack)

---

## PROJECTS

---

PlayThis | <https://github.com/yeshugaire/Project1> | <https://yeshugaire.github.io/Project1>

Project Manager/Lead Developer

- App allows users to upload playlists from Spotify
- Users can then sort tracks by various criteria (tempo, key, danceability, etc)
- Allows for ordered sorting by multiple criteria (i.e. secondary and tertiary sorting)
- Users can then save the new reordered playlist back to Spotify
- Technologies used- HTML, CSS, JavaScript, Bootstrap and DataTables libraries, and Spotify API

---
